

# JAQUES

DESIGNED & BUILT TO LAST

## CASE STUDY

Completed in October 2024, this building features a built-up steel lining, insulation and cladding system, with Kingspan composite panel office walls.

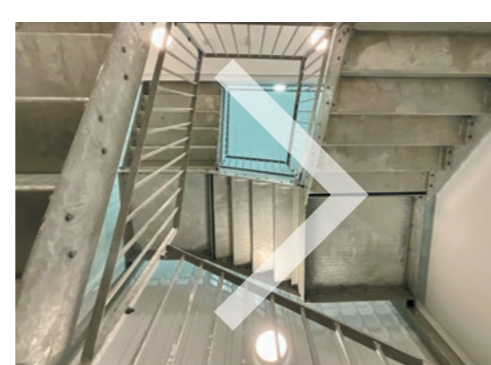

Steel portal framed building 150m long x 15m wide x 9m high erected under a BAPA Agreement with Network Rail due to the proximity to a live railway line.

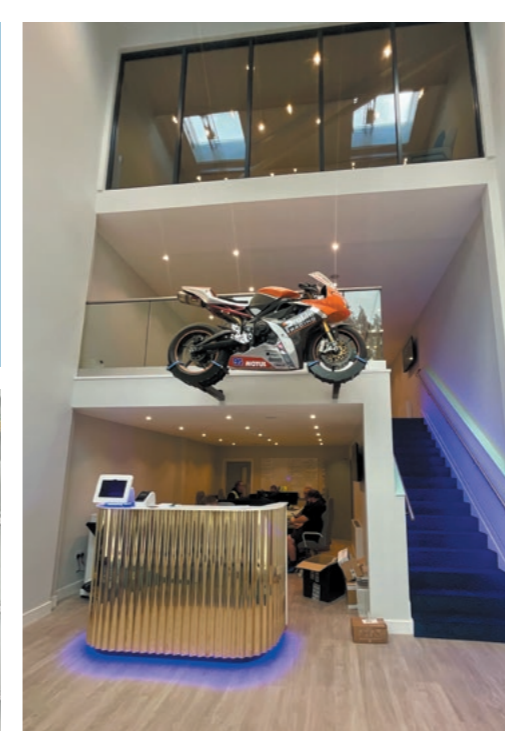

Office & Industrial Building - Shropshire

A mix of Anthracite grey aluminium and uPVC framed glazing was installed, with expansive curtain wall glazing completing the entrance lobby.

Three floors of offices and amenities at one end, with galvanized steel and precast concrete internal staircases.

Reflecting on the project, Samuel Hornsey said:

**“Jaques have been one of the easiest businesses to work with and the role they’ve played throughout the project has been crucial.”**
