CASE STUDY

3 No. 3,000 Bird Free-Range Egg Laying Mobile Poultry Houses – Hampshire

Each house measures 46m long (42.5m Bird Area + 3.5m Packing Area/Control Room) x 9m wide. The buildings have an overall height of 3.75m and are built on two galvanized steel channel skids. Each building has a large set of double doors in the Bird Area, one internal and one external personnel door, plus an additional egg pallet external door.

External cladding in Dark Green with a continuous 1.6mm thick galvanized steel gutter system. Internal lining in Goosewing Grey.

Naturally ventilated with continuous side vent (manual rack & pinion system operation), six pop-holes (manual braked hand-winch operation) and far end gable fan (powered air extraction for hot weather).

Innovative mobile housing designed to meet the latest industry welfare standards. Mobile housing supplied to date has varied in size from breeder buildings 12m x 3.5m to organic egg laying units measuring 12m x 65m.
